

# HAND SANITIZER PROGRAM

Prime Chemical Solutions is excited to announce we are offering the only complete hand sanitizer program in Kansas City.

## The complete program includes:

- Hand sanitizer manufactured in Kansas City by Solids, Inc., a locally owned family business
- Hand sanitizer dispensers manufactured in the U.S., with both touch-free and manual options
- Hand sanitizer stands designed in conjunction with dispensers from Kansas City-based Brightwell

## Total cost is as follows:

- \$169.99 for touch-free hand sanitizer dispenser with stand
- \$29.99 per gallon hand sanitizer (Alcohol Antiseptic topical solution)
- \$60 per touch-free liquid hand sanitizer dispenser
- \$20 per manual liquid hand sanitizer dispenser

## Features of the program include:

- Free delivery of hand sanitizer, hand sanitizer dispensers, and hand sanitizer stands
- Free installation of hand sanitizer dispensers and hand sanitizer stands
- No minimum purchase

## WHO WE ARE

Prime Chemical Solutions was founded as Prime Market Distributors in the 1950's to provide services to Kansas City's restaurant industry.

In 1994, Walt Rogers came to work for Prime and quickly expanded Prime's presence in Kansas City in warewash, laundry, and housekeeping.

In 2000, Walt bought Prime and grew the company into Kansas City's largest locally-owned supplier of warewash and laundry chemicals for hotels, restaurants and nursing homes.

In March 2020, when the pandemic struck Kansas City, Prime chose to use our expertise in cleaning and sanitation to help our neighbors stay safe and healthy during this difficult time.
